

RESIN FIBER DISC PADS

MOLDED RUBBER AIR COOLED PADS

Kasco's "**Spirub**" molded rubber pads feature spiral cooling fins. They are available in four sizes and with or without the retaining nut. Each pad threads on to the tool shaft. These pads are comparable to any molded rubber pads on the market.

EDP #	PAD #	DESCRIPTION	RPM
151751	601-SR45M	4-1/2" x 5/8-11 Spirub RFD pad Medium	13,500
151751N	601-SR45MN	4-1/2" x 5/8-11 Spirub RFD pad Medium with nut	13,500
151752	601-SR50M	5" x 5/8-11 Spirub RFD pad Medium	13,000
151752N	601-SR50MN	5" x 5/8-11 Spirub RFD pad Medium with nut	13,000
151753	601-SR70M	7" x 5/8-11 Spirub RFD pad Medium	8,600
151753N	601-SR70MN	7" x 5/8-11 Spirub RFD pad Medium with nut	8,600
151754	601-SR70F	7" x 5/8-11 Spirub RFD pad Flexible	8,600
151754N	601-SR70FN	7" x 5/8-11 Spirub RFD pad Flexible with nut	8,600
151756	601-SR90M	9" x 5/8-11 Spirub RFD pad Medium	6,600
151756N	601-SR90MN	9" x 5/8-11 Spirub RFD pad Medium with nut	6,600

INTERCHANGEABLE PLATE SYSTEM

Koltec's patented plate system for 7" resin fiber discs offer both end-users and distributors maximum flexibility and performance. A precision hub threads on to the tool's 5/8-11 shaft. A total of six backing plates are available that attach the hub with a quarter turn. This system allows users to change pad flexes without replacing the entire pad. It also is more cost effective to replace the plates than an entire new pad. 8,500 RPM
